关于我们

About Us

公司简介 Company Introduction

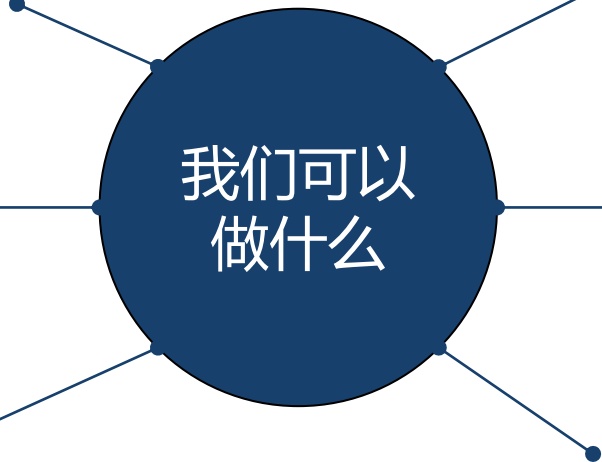

We are hi-tech manufacturing company, which focus on the research, design and production of precision silicone/rubber products. Our main focus right now is supplying precision components for military and companies that have global presence. We have implemented up-to-date technology and advanced management approaches throughout the years of doing businesses both in mainland China and Overseas.

The raw materials, such as butyl rubber, neoprene, nitrile butadiene rubber and silicone, come from world leading supply companies, which sulfide and extruded adhesives have been widely applied to aerospace, seafaring, electronic industries, communication equipment, audiovisual equipment, medical equipment, home electrical appliances, etc. From parts assembly to molding, we've all used computer-aided manufacturing (CAD/CAM) technology .

产品特点 Product Features

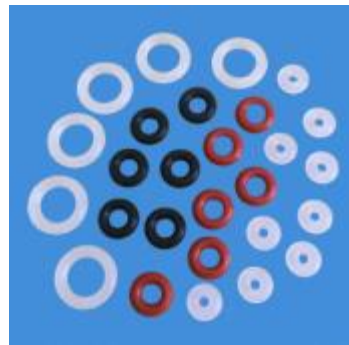

食品级产品类，不含有害物质，适用于各类消费品产品
Food grade consumer goods , harmless substances, suitable for all kinds of consumer goods

汽车零部件类，产品拥有0~3欧姆超低阻抗，以及百万次耐打击寿命
Automotive components, products with 0~3 ohm ultra-low impedance, Attack life: one million times

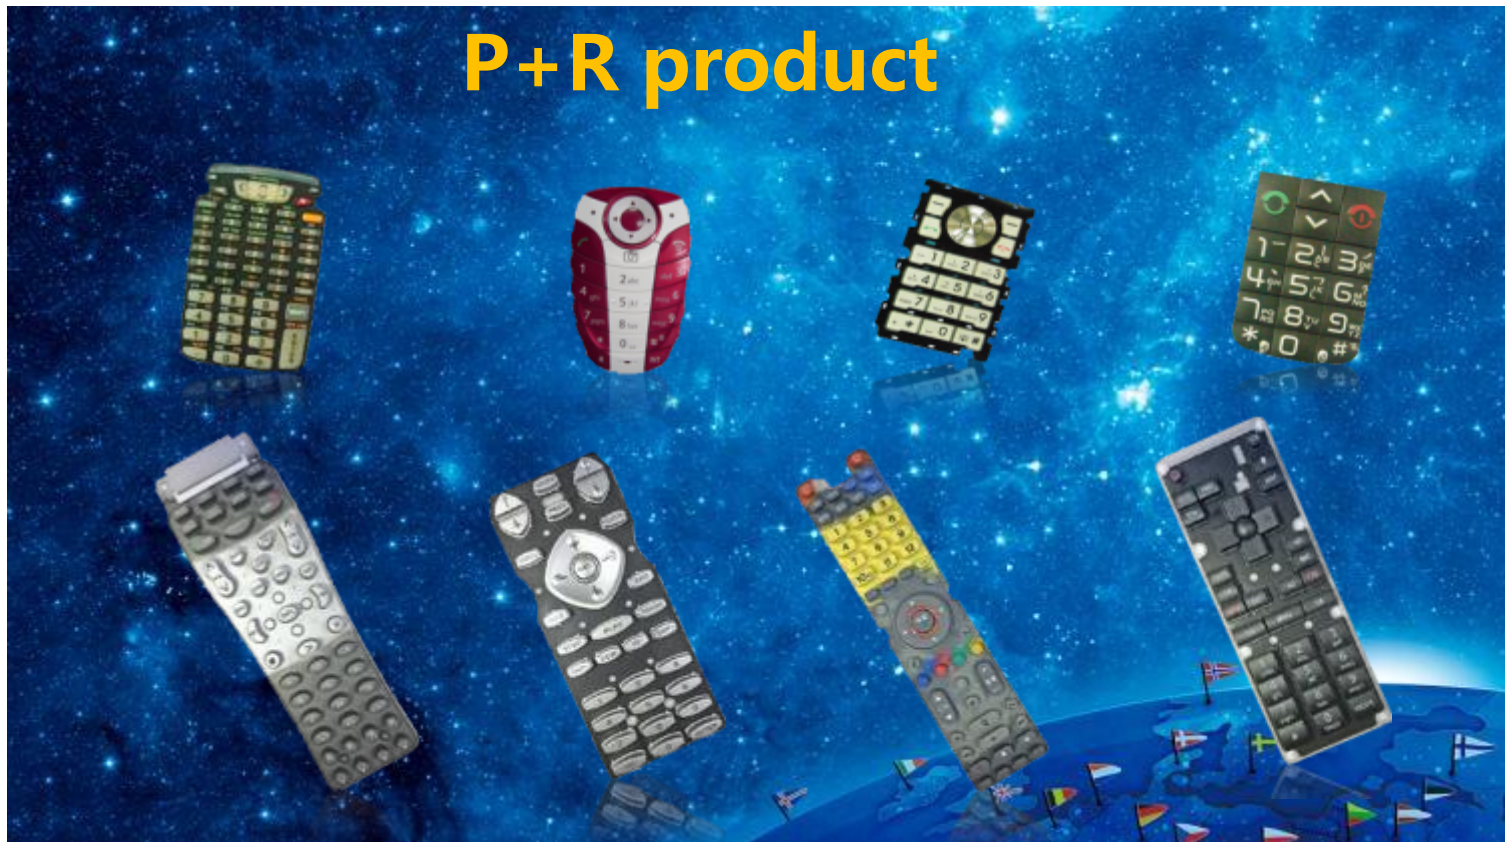

航天军工用品类，产品内部拥有特殊密封结构，高效防水、防尘、密封、油封
Aerospace and military supplies, products with special internal sealing structure, efficient waterproof, dustproof, sealing, oil sealing

医疗设备密封零部件类，产品拥有医用级特种材料，可以有效防菌、防感染

我们的优势 Our Advantage

➤ Q- 品质 Quality

We have a very mature production process that can provide stable and reliable production quality services.

➤ C- 成本 Cost

We have a good cost control center which can provide the same level of products at a very low service cost;

➤ D/D- 产量/效率/交付能力 Production/Efficiency/Delivery capacity

We have enough equipment, production capacity and manpower to ensure timely and quantitative delivery on customer demand according to customer requirements. We are close to customer, so we can respond very quickly.

➤ D/L- 产品研发/技术 Research & Development

We have a new product design/reverse engineering capability, the mould development cycle is short, mould repair rate is low and production technology is mature and stable

➤ M – 人才/设备/物/方法/测量 Talents/Equipment/Raw Material/Method/Measurement

We have excellent technical personnel, new equipment, a new 100,000-class dust-free workshop, domestic and foreign brand raw materials, as well as new measurement equipment, scientific measurement methods and a complete quality control system

➤ S – 销售/服务 Sell/Service

We have a loyalty customer base, a perfect after-sales service system and high quality service

■ 软硬件升级 Hardware And Software Upgrade

工厂升级 The Factory Upgrade (PLT)

- 2018年一期投入520平方米十万级动态无尘室，改造后的一楼十万级无尘成型车间可以同时容纳30台全新生产成型油压机，年生产出货量可达8~10亿片；

Have upgraded the factory(520 square meters) in 2018, the New dynamic 100,000-class clean workshop can accommodate 30 new molding equipment at the same time, which will put out 800 million to 1 billion pieces of products per year.
